Rock Plants and Seeds - - - - - Lilies
Trees and Shrubs
Ferns, Perennials

ADDRESS
MRS. CLARICE NYE
Prospect, Oregon
Crater Lake Highway Forty Miles
from Medford

Advice About Rock Gardens

We are glad to help with any problems at any time, and can heartily recommend "My Wild Garden" and "Taming the Wildling" by Herbert Durand, and "The Rock Garden" by Lousie Beebe Wilder, as best authorities in Eastern United States.

For information as to the value for garden use of western native plants, read "Western American Alpines," by Ira N. Gabrielson. If you would like to climb our mountains and see our lovely wildlings in their homes, but cannot do so, take a trip at second hand with Dr. Gabrielson. You will find him most delightful company, and through his appreciative eyes will be able to enjoy and estimate them at their best. Order from me. Price \$3.50.

"Hardy Californicans," by Lester Rountree is equally valuable and interesting. It brings sixty-four photos of unusal native beauties, many of them offered in this catalog. Hundreds more are described and their real value and needs told by one who knows. Order from me. Price \$3.50.

"Rock Garden and Alpine Plants," by Henry Corrovon, of Switzerland, is undoubtedly one of the best in the world, and at the new low price should be

had by all. Price \$3.00. Order from me.

Oregon Wild Flowers

Seeds—Seeds of many varieties can be furnished at 25c per packet. In ordering seeds, please list some substitutes that may be sent in case of shortage. Plants in this list are so rare that the supply is uncertain. Small packets, 5c.

Numbers (00) indicate height by inches.

The price for a dozen is ten times the price for single plants. Half dozens are sold at dozen prices. All are packed free of charge, and post-paid.

Our prices are cash with order, and we will send C. O. D. to reliable persons.

Small orders receive the same attention as large ones. Do not hesitate to write us if you only wish one item. Also, we will be interested to hear about the wild flowers growing in your locality. We make exchanges and buy desirable wild plants and seeds. We give a discount on large orders from parks, colleges, etc., and a trade discount to dealers. Write for wholesale prices.

Address all orders to Clarice Nye, Prospect, Oregon.

Native Plants Suitable for Dry Garden in Sun unless Otherwise Stated

	Each
Anemone Deltoides, purest white colors for s	shade .15
Baldensis, a beautiful light blue alpine, (10)	
Lyallii (4) pastel shades, requires acid soil in shade	
Occidentalis, Chalice Cup, milk white, ferny leaves	

Oregana, white with blue tints	40
Acid soil in shade required	
Pulsatilla, pasque flower	.35
Abronia latifolia, yellow sand verbena, creeper from sea beach, Umbellata, pink, seeds of	
both.	
Actea spicata var. arguta (30), nice foliage white fl. and red berries in fall. Shade best	.35
Apocynum pumilum, pink fl. and leaves turning yellow in summer (8)	.25
Aquilegia formosa, scarlet and gold	.25
Long spurred hybrids, mixed colors	
Dwarf rock garden species, mixed	.25
Hoop petticoat, double in many colors	.20
Arabis Lyallii, pink fl. for sh. rocks	
Purpureus, deep pink, very dwarf	
Armeria artica, deep pink (6)	.25
Arenaria caespitosa, a lovely mossy ground cover with tiny white fl.	.25
Aster alpina, not native, large blue	
Native, blue (6), (12) purple (15)	.25
Aster New Dwarfs not native,	.30
Countess of Dodley, bright pink Lady Henry Maddocks, light pink	
Lilac Time, lovely soft lilac	
Marjorie, bright rose pink	
Snow sprite, semi-double white	
Victor, clear lavender blue Mauve Cushion, only six inches high	
Aster Michaelmas Daisy	.20
Feltham blue, Novae Angliae, violet purple	
Perry's White, small stars with yellow center Mrs. Raynor, reddish; St. Egwin, pink	
Very large blue and semi-double purple	
Native blue from Oregon sea coast	
Arenaria Montana, close gray tufts with white	00
flowers in early springAjuga reptens rubra, red leaves, blue fl	
Agrostemma coronaria, mullen pink, downy	.10
leaves and deep rose purple fl. (15)	.15
Asclepias tuberosa, orange Butterfly weed	.25
Speciosa taller, with white leaves and pink flowers, not so showy (36)	15
Mexicana, more slender, pink fl. (24)	.25
Antennaria rosea, flat gray leaves, pink fl. (3)	.25
Asarum caudatum green leaved ginger also listed	0-
with the bog plants Hartweggi, mottled leaved ginger, sh.	
Lemmonii, similar but better	.35
Astragalus purshii var. tinctus, a desert pea that	
makes a little flat mat of pretty leaves	
decked with purplish red flowers. Later pods are covered with dense wool and on	
opening like a black beak with the shiny	
seeds like eyes appear like birdlings in a	
nest. Called wolly lambs. Seeds only.	
Artemesia abrotanum, Old Man, finely cut foliage, pleasantly scented (18)	.25
Artemesia species, name not known (18), stiff	.20
white foliage, vellow flower	25

Boltonia, white asteroides, not native	
Boykinia elata and major for moist shade	.25
Brunella vulgaris (6) deep lavender	.15
Atropurpurea, deep purple	.23
Balm, Mountain, Eriodictyon Californica, called by the Spanish Yerba Santa. Dried leaves	
per oz. 15c; roots	.50
Balm, Monardella, scented leaves and pretty	
lavender flowers	.15
Buckwheats, see Eriogonum	
Callirhoe involucrata, trailing poppy mallow, a	
beautiful vine that will cover a space four	
or five feet across in any good situation	.25
Calamintha alpina, not native but a very pretty	05
plant with purple fl. (6) Chrysanthemum, pink cushion, dwarf variety	.25
that begins blooming in July and continues	
all season	.25
Yellow to rose, less than a foot high.	.25
Calandrina umbellata, needs dry soil, a crimson	
purple flower opening in the afternoon (6).	.25
Calypso borealis (bulbosa) Fairy slipper, a beautiful pink orchid found only in shady woods.	
Soil and moss with bulb	.25
Campanula Scouleri, (4) light blue lily shaped	
bells, for woodsy banks	.25
Species, probably a variety of the above but	
much more free blooming. Our name for it is Multiflora. Seeds.	
Rotundifolia, from Washington State	.15
Species, possible a variety of above but	.10
smaller from Siskiyou Mts. (4)	.35
Castillija mineata (10) Indian Paint Brush	
showy in very dry situations in sun	.15
Carum Oreganum, white lacy flower (15), tubers prized for food by Indians	15
Chrysanthemum leucanthemum, white daisy	,
with golden center, hardy and long bloom-	
ing (15)	
Coptis lacinata, yellow flower with varnished fern leaves, pretty in dry woods (5)	.25
Cornus Canadensis, bunch berry (4). This is	.20
very pretty with its white Dogwood flower	
and red berries but is hard to grow. Re-	
quires acid leaf mold near water in shade	.25
Corydalis caseana, white flowers, ferny leaves Aurea, yellow,	.25
Cotyledon Californica, thick leaved rosettes	
Oregana, larger and whiter, neither hardy	
for hard freezing, found on sea cliffs	.25
Cynoglossom grande, a lovely blue flower on	~~
a tall, coarse plant (25) Cypripedium Californica, a bog orchid with	.25
many cream white flowers, less finicky than	
these following but requiring moisture	.50
Montanum, large pinkish ladyslipper, shade	.50
Fasciculatum, small pink and brown fl. (8)	.50
Darlingtonia Californica, the beautiful Western	
Pitcher plant. This is very desirable but difficult to grow. I am told it succeeds if set	
where it can have a constant supply of water	
containing ammonia	00

Delphinium Andersoni, blue. Seeds only (24).	
Columbianum, a beautiful deep blue (12)	.25
Menziesii, deepest purple blue with white	4 ==
bee and spotted leaves (6)	.15
Nudicaule, orange to red (18) Parryii, blue, seeds only (24)	
Parishii, white to purple. Seeds only	
Scopulorum, very tall, purple blue, for moist	
soil in shade	.00
Dentaria Californica, very early bloomer, white	
bell shaped flower round dentate leaf (5)	
called Spring Beauty here	.15
Macrocarpus, larger, from Siskiyou Mts	.15
Tracyii, lavender with purple leaves	.15
Dicentra Formosa, plumy bleeding heart, beauti-	
ful foliage	.15
Oregana or Glauca, silvery leaves and cream.	50
flowers with purple tips	
Douglasia laevigata, cutest alpine	
Dodocatheon Alpina, (6) prefers moist situation	
Hendersonii, (6) a beautiful rose to crimson	.00
primulacae, blooming very early in the	
spring. Good in the rock garden	.15
Jeffreyii (12) a later bloomer called Sierra	
Epipactus Gigantea, for moist shade	.20
Erigeron Radicatus, (2) deep blue or purple, free	
blooming	.35
Compositus Var. trifidus, (4) white flower	
Folicosus var. compositus, (6) light blue	
Salsuginosus, (10) large Alpine daisyGlaucus, very dwarf, large flowered	25
Species from the coast, covered with large	.20
blue flowers in autumn, similar to Michael-	
mas Daisy	.25
Evening Primrose, see Oenothera	
Eriogonums are fine for the rock garden. Dry	
situation. Seeds best as they are hard to	
transplant. Flowers are in clusiters and	
dry perfectly for winter bouquets. Dry	
sunny sit.	
Compositus, cream white in four to six inch clusters. Seeds only.	
Douglasi, yellow flower. Plant, a fine thick,	
neat, gray white foliage. Seeds only.	
Nudum, (18) white flower on slender stem	.25
Sulphureum, Same but yellow	.25
Umbellatum, (6) large yellow flower	.25
Species variety of above, red flowers. Seeds	
only.	50
Ovalifolium (3) everblooming alpine pink Species. Wild Pink Buckwheat, a beautiful	.50
late annual. Seeds only.	
Eriophyllum	
Ianatum, green foliage, white beneath	.25
Ceaspitosum, (8) Oregon Sunshine, yellow	
flower, white foliage	.15
Species, (4) felty white foliage, Alpine	.50
Erysinum aspernum, (12) Western Wall Flower,	
yellow	.15

Ferns

Very dwarf ferns suitable for rock garden.	
The roots should have a nice pocket of	
soil well protected by a large stone to	
conserve moisture and thus they will face	
full sun.	
Chelianthes Gracillima, (5) lace fern, dainty,	
clump	.25
Cryptogramma Acrostichoides, (3) parsley	
fern	.25
Gymnogramme triangularis gold fern (6)	.25
Pellaea brachypteris, (6) evergreen fern,	.35
like a sprig of fir	.00
gile. Drys down in summer, reappearing	
in early spring Lomaria Spicant, the Deer fern for moist	.15
Lomaria Spicant, the Deer fern for moist	05
shadePellaea densa, the daintiest and also the	.25
hardiest dwarf fern	25
Filin-fragilis, a delicate little beauty, a bit	.20
larger than Woodsia Oregana	.15
Polypodium Occidentale, licorice fern, pre-	
fers a mossy stone for a home	.15
Larger Ferns	
Polystichum Lonchitis, Holly Fern, a lovely evergreen fern for shade only	50
Polystichum Munitum, large sword fern	.25
Polystichum imbricans, small sword fern for	
dry rock garden	.25
Pteris aquilina var lanuginosa breaken, for a shady spot. This makes a tall back-	
a shady spot. This makes a tall back-	15
ground	.10
fern	.25
fernAsplenium felix-foemina, lady fern, moist	
shade Each 25	.50
Woodwardia Radicans, great chain fern, very large, requires moisture and shade.	
Each	.00
We have many other nice ferns not yet classifi	ed.
Write us your wants.	
Fragaria, wild strawberry from beach, glossy	
leaves, red runners, nice berries	.15
Wood strawberry, large flowers	
Gentiana Affinis, a very nice little gentian with ve	ery
dark blue flower, freely borne, moist soil Species probably variety of above. Large,	.50
free-flowering, for dryer soil. As many as	
eight large striped upturned bells open	
at one time	.50
Our name for the above is Multiflora for	
its freedom of bloom Nye's New Florenciana, a fine variety we	
have been unable to find described. It is	
have been unable to find described. It is a lovely deep dark blue and likes a black	
bog soil by a mountain brook	.50
Newberryl, a rare, low-growing large flow-	00
Orfordii, (24) a taller sort with several nice,	00
medium blue flowers	.50

Geranium incism (Fremonti) needs shade. Flow-
er large purple pink (25)
Richardsoni, large pure white (24)
Gilia aggregata, scarlet gilie flower or trumpet phlox, nice dwarf cut leaved plant that runs up to three feet with many bright but
dainty flowers, the second year (8-20)
Pungens (Leptodactylon) a little beauty nearly like Phlox Douglasi
Nuttallii, White, night blooming
This is interesting but not so beautiful.
It is a desert plant. Goodyera Menziesii, mottled green and white
leaves, shade
Gormania Watsoni or obtusatum (6) white flow-
er, a plant very nearly related to the
Sedums and as good for dry or moist rock
work
nice
Hesperochiron pumilus, a tiny white-flowered
damp-lover. Blooms very early
Heuchera micrantha (12), spray of white flow-
ers, begonia-like leaves which color nicely25
Glabella, green leaves, good for dry rock work .25 Hulsa nana, (4) sun flowers large as a dollar
with ruffled hairy leaves. Sand in full
sun on mountain tops. Seeds on'y.
Irises. Our native irises should have the care
of any fiberous rooted plant. Are not so
hardy, as those with large rhizones. After
becoming established they will endure as
much hardship as ordinary perennials.
Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green
Species, our name, Nye's Iris Selma, smal-
ler than above but with as large and even
finer flowers (8)
Chrysophylla, white or cream with very dainty tints and veining (6)
Californica, varied colors (6)
Douglasiana, the beautiful iris, so plentiful
along the Oregon Coast where it is found
in every shade of light blue, orchid, lav-
ender or white. (18)25
Cristata, a lovely light blue dwarf from North Carolina (5)25
Innominata. The finest yellow western iris,
a deep buttercup gold on stiff stems six
to eight inches high. Foliage narrow and deep green. From dry rocky hillsides 1.00
Gold River, a variety of the above still smal-
ler and a beautiful orange in some speci-
mens1.00 Sunset, a slightly less yellow form. Seeds only.
Hybrids Innominata x Chrysophylla. Seeds
and plants 1937 autumn
Hybrids Chrysophylla x tenax. Seeds only.
Missouriensis (18) white or light blue lined with blue. Moist soil, alkaline

Tenax. This is one of our best as well as	
most varied in color coming from white to	
deepest blue and rarely in lilac and or-	
Thompsoni. This is a lovely little thing of-	
chids, 'falls ruffled	.25
fered by others as a color variation of	
I. Innominata. We found it and offered it	
as I. delight but Prof. Thompson of Se-	
attle had beaten us; we hereby give him	
credit and he allows us to be the first	
to offer it under his name. It is a lovely	
orchid and forms a dense mat of narrow	
green foliage, quite distinct	1.00
Lineafolius. This is our own name for a	
very dainty little white iris with foliage	
only a line wide and very sparse. Stems	
wiry, six to nine inches high	1.00
Louisiana wild iris. These are very interest-	1.00
ing and have proved hardy here. Burnt	
orange and blue	50
Versicolor, native blue iris from Wisconsin	25
	.20
Juniperus—see tree and shrub list.	
Leucocrinum montanum, pure white sand lily,	
clump	.40
Lewisia—The evergreen varieties are often lis	stea
as Orebroma and include all except redi-	
viva and oppositifolia. These are our very	
best rock garden plants requiring good	
drainage and full sun, but not south ex-	
posure in California. Roots should have	
good protection under large rocks, and no	
irrigation. Coarse sand or broken rocks	
around the plant on surface to prevent	
damping off.	
Columbianum, has narrow leaves and small	
flowers. This bloomed the whole summer	
and fall in my rock garden. Flower white	25
Columbianum var. rosea. Pink	25
Cotyledon, slender leaved rosette and white	
flower, veined pink	.25
Finchii, one of the best. Have counted over	
five hundred florets from one plant in a	F0
season. Striped pink flowers	50
Nye's new variety of Finchii, still larger	
with a clear pink flower	50
Hecknerii, a fine new one with saw-edged	
leaves; flower pink striped with white	35
Howellii, leaves of the rosettes, ruffled and	
crested, flower deep rose striped with	
	35
	00
Ingramii, a variety of Howellii, equally good	06. 1
Leana, narrow leaved evergreen plant flower	0-
a many blossomed spray	25
Nye's Dwarf Rose variety of above with larg-	
er semi-double flowers on short stem and	
of a fine bright rose	50
Eastwoodiana, very similar to above but	
pure white. Very rare	50
Seeds of Eastwoodiana, 5c each	00
Whiteii, of this group but has a longer	
	1.00
spearshaped leaf	1.00

Tweedyii, largest and one of the loveliest of this family. Very long blooming. Color,	
peach to salmon pink. Seeds 5c each. Large plants	1.00
Smaller50 an	
New Varieties—The following are offered as Howellii var. Nelson Nye, large, intensely ruffled rosette with light creamy pink to almost white flowers on long stems	50
Millardii, large, handsome rosette of broad- ly spatulate leaves, slightly ruffled. Flow- er similar to L. Finchii and freely borne	50
Longifolia, leaves very long, narrow and thick only slightly ruffled. Flowers lemon yellow white to creamy pink borne on extra long stems. Distinctly different	.50
Mariana is of the evergreen rosettes variety, foliage dark in color, flower yellow and white with some pink, very striped. It is	
almost everblooming with me	
creamy pink to white flowers	.50
riweather Lewis and is named for him. Thrives in dry soil	15
blooming. Brachycalyx, very pretty pure white Seeds 5c each.	40
Nevadensis, smaller than above	15
ering stems about six inches highVar. Richeyi, a new dwarf form more free flowering than the above	
Triphylla, very pretty but a well grown plant in bloom is not much larger over than a	
silver dollar. Pink flower Lewisia Species, fine distinct new ones not	
yet named. While they are in stock	
inneae Borealis var. Americana, Twin Flower Vine	
upinus Lyallii (4), the tiny gray-leaved Alpine which blooms the whole season. Seed is	
Minimus (9), very free blooming	.15
Ornatus (12), silver-leaved lupineArboreus the beautiful tree lupine with yellow flowers. Seeds only.	35
Breweri, very dwarf with white leaves and nice blue flowers	25

L

Chamissonis, blue tree lupine. Seeds only Rivularis, a tall variety growing by streams has long bloom spike and handsome bronzy leaves, seeds and plants	.35
soil with their long roots and are very hardy. Lithophragma affinis, white woodland star Tennella pink	
Lutkea pectinata (4), make a lovely green mat in a moist spot in rocks. Spreads quickly.	
Monardella villosa, a free flowering mint (7) Micromeria Douglassii vine with scented leaves;	.25
nice in the rock garden	.15
Mertensia laevigata, a large blue bell (16)	
Montia parvifolia, dainty white flower, always in bloom (6)	
Oenotheria tricocalyx, Desert Primrose; opens pure white and changes to pink. Sandy	
alkali soil, well drained in sun (6)	
Sun cups; day blooming; yellow (10)	
Oxalis oregana, pinkinsh and pretty	.15
Oreobroma—see evergreen Lewisias	
Paeonia Brownii, (8) our only native peonia and	l a
dwarf adapted to a rock garden; large	
red flower	.50
Parrya (4) a pink flowered deep rooting plant fou	
where there is some moisture on the edge	
of the desert. Seeds only.	
Pedicularis densiflora. Indian Warrior. Very	
	E0.
handsome but hard to tame	
borne Cardwelli (6), shrubby creeper, very free	.35
blooming, flower brightest blue	.50
Centranthifolius (36) scarlet bugler	
Cordifolius, climbing scarlet trumpeter. Seeds only.	
Corymbosus (18) shiny leaved shrub. Seeds only.	
Davidsoni, very dwarf, blue flower	.50
Glaber (8) larger flowered blue apline	
Heterophyllus (15) very long blooming blue	
Jaffrayanus (6) deep blue alpine. Seeds only.	
Laetus, medium blue (10) very hardy	15
Menziesi (6) shrubby evergreen creeper with	.10
small round green leaves and blue flowers	25
Rupicola (6) gray leaved shrubby creeper	.50
	25
lovely rose crimson flowers, very nice	
Fruticosus (8) Lavender flowers	.33
Procerus, blue clustered penstemon	
Roezli deepest blue (15)	.25
Speciosa (36) very long spike of lovely	0-
	.25
Tolmei, a tiny dwarf of the clustered group	
from our highest peaks	.50
Phlox adsurgens (5) evergreen creeper with	
	.25
Douglasi (3) Alpine phlox forms a dense	
mat covered with lovely flowers	.50
Hoodi aqually low growing with white fl	50

Speciosa, slightly shrubby with sparce	25
leaves but beautiful pink flowers	.35
Species from Klamath County, doubtless a var-	
iety of P. Douglasi but even more dwarf and compact with lovely pink and orchid	
flowers nearly hiding the deep green	
mossy plant (2)	.50
Subulata atropurpurea, not native but very	
good. Vivid, bright pink. Both are creepers	
and make a presentable plant when not	
in bloom and a mass of color covering the	
entire plant when blossoming in early spring	25
Decussata, too tall for the rock garden as a rule	.20
but a very fine plant where height is	
right.	
Miss Lingard, pure white early bloomer with	
deep green shiny leaves (15)	.25
R. P. Struthers, deepest pink with red eye	.25
Amy Gordon, named for my great grand- mother and from her garden. Florets are	
small but are in large clusters on four	
foot stems. Color white tinted orchid	.25
Mixed seedlings, many colors, doz. \$1.00, ea.	.15
Pipsisewa (Chimaphila) Prince's Pine, hardy for	
cold and drouth and good for naturalizing	
under evergreens. Flower pink. Evergreen	
and much used for decoration. Also medi- cinal and can be supplied dried	25
Phoradendron, mistletoe, berries in season, pk	.20
and sprays for decoration, post paid,	20
per lb.	.25
Potentilla anserina, Silver Weed, creeper spread-	
ing by runners, fl. deep yellowFruticosa, Cinquefoil, Shrubby with many	.15
Fruticosa, Cinquefoil, Shrubby with many	
nice yellow flowers (18)	.35
Gracillis, rather weedy but pretty (14)	.15
Polemonium Carneum (10) largest flowered of	.50
our Jacob's Ladders and of a beautiful	
pink	.35
Confertum var eximium very dwarf blue or	
white flowered alpine cutie. Seeds only. Occidentale (18) Needs a brookside place	25
Pulcherrimum (8) a very beautiful blue al-	.50
pine form very free flowering at home	
in dry rock work	.35
Ranunculus glaberimus (4), Sagebrush buttercup	
deepest yellow flower, very early bloomer	.25
Californicus (12) very early bloomer Occidentalis (8), better than last	.15
Creeping double, only a few inches high.	.10
Spreads quite fast but very pretty. Not	
native	.10
Ribbon grass, bulbous, only grows 4 inches high and does not spread fast	4 ~
Ribbon grass, tall, pink, white and green	.15
Rubus Nivalis, rare creeper requiring acid soil	.10
and deep shade. White flower, red ber-	
ries and crisp varnished leaves	.50
Romanzoffia Californica (6) for a mossy spot	

Rudbeckia Californica (50) a tall native with	
long glaucous leaves and lemon yellow flowers with high purple brown center	50
Golden Glow, double golden yellow (72)	10
Purpurea, purple cone flower (36)	.25
Saponaria ocymoides, nice creeper with bright	
pink flowers. Spreads quite fast (4)	.15
Double light pink fragrant (16)	
Both are not native.	
Shamrock, brown clover from Ireland	
Sidalcea Oregana, tall wild hollyhock	.15
Californica, dainty pink fl. (10)	.15
Saxafraga Eastwoodiana, moist, mossy rock-	
work in shade. Very rare	.75
Species with tiny brown notched leaves	
and pretty white flowers. Same situation as above	50
Mertensiana (6) white flower	.15
Peltata (36) with very large round leaves	****
suggesting the name of Umbrella Plant.	
Flower pink in large cyme, early in spring.	
Needs a water margin soil	.50
Tolmei, a dainty white flowered alpine with	
shiny beadlike foliage resembling a tiny sedum, found at base of glaciers. Roots	
very deeply so seeds are best.	
Sedum divergens, slender upright or reclining	
branching stems with beadlike leaves	.15
Var. Rattlesnake moss, larger than above	
both with starry yellow flowers	.15
Douglasi, tiny green rosettes, nice in winter	
running up 3 to 8 inches high with whit-	
ish flower. New plants form on stems of	0~
old and spread freelyRadiatum, very similar to above but yellow	.05
flowered	05
Obtusatum, thick whitish leaves turning	.00
Obtusatum, thick whitish leaves turning bronzy in fall; flower white with red	
brown center. Sun, dry soil	.15
Oreganum, close rosettes of bright green	
turning reddish, yellow flower, best in	.25
shade	.20
angled ends of leaves, flower white, red	
center; sun	.25
center; sun	
green connected by red runners, yellow flower. One of our cutest sedums. Must	
flower. One of our cutest sedums. Must	95
have shadeSpecies with equally flat gray green rosettes,	.20
larger and taller stems with starry yel-	
low flower, shade	.25
low flower, shade	
cover a multitude of variations. Often the	
last before and the two following. As we	
offer it the rosettes are small and white changing color with the seasons. Flower	
stems 2 to 4 inches and blossom nice yel-	
low. Very good in sun or light shade on	
dry rocks or any place	15
Woodii, very small with deeper yellow flow-	
ers	25

Cape Blanco, very white larger rosettes with light yellow flowers from sea cliffs, sun	
or shade	.15
Stenopetalum, low growing yellow flowered for sun	.15
Species, green, thick leaved, low growing with red margin in spring and silver line in autumn	.25
Species gray green blossom stems thickly leaved appearing to be a button string,	.25
flowers pink	.20
Sedums acre, mossy green carpeter at blossom	
time, pure gold almost without a touch of green	.15
Acre minor, still smaller	.15
Angelicum, tiny flat carpeter, pinkish fl	.15
Altissimum treelike with yellow flower (8) Brevifolium, very tiny glaucous foliage	.15
Glaucum, tiny gray, bluish foliage, white	.10
flower	
Coccineum, white flower, leaves turn red Kamtschaticum larger (4) with orange flower	
Kamtschaticum variegatum, green and	.10
white leaves	.15
odd	.15
Sexangulare, a tiny angled one with yellow flowers	15
Spectabile, Live For-ever, tall, pink fl Stellaris, a nice little one with white	.15
flower Spurium, white flower, broad notched leaves	.15
Spurium coccineum, red flowered (6)	
Sempervivems, not native here, but a very fine	
group of plants for the rock garden.	
They do not compare favorably with Lewisias from any point encept hardiness and	
rapid increase but they are of the very	
best in those. Each	.15
Arenaria, bright green, tinted red in winter Atrapurpureum, very large purple rosettes.	
Fimbriatum, slightly hairy.	
Laggeri, larger cobwebs or with pink flower.	
Pallidum, light blue green Tectorum, old stand by Hen and Chickens	
Violaceum, deep purple.	
The seven varieties\$1	.00
Twelve unnamed varieties	.00
Scutellaria angustifola is not the large plant	
its name implies. It is only about six inches high, with a deep blue flower	.15
Tuberosa, still small with light blue flower	.15
Silene Hookeri downy leaved fringed pink. Salmon	1
pink needs deep soil among rocks	.25
Ingrami, sometimes considered a variety of	
S. Hookeri, but taller and very deep pink	.35
Californica, brightest red, very showySisyrinchium Bellum, blue-eyed grass, moist	.25
soil Bellum, blue-eyed grass, moist	.15
Californicum, similar, but vellow	.15

Grandiflorum, larger, satiny, spreading bells
of a beautiful crimson-purple, sun
Grandiflorum var. with light pink flowers,
sun
Solidago elongata, golden rod
Spergula, green mossy carpeter with white flower .25
Spragua umbellata, pussy-paws, grows flat on
the ground, flowers white to red, water-
melon scented
Multicaps, many headed or rosetted. Turns
a nice reddish color
Synthyris rotundifolia (3) Hope o'Spring, Sleigh-
bell, or Spring Queen, all names of a well-
loved little blue flower which comes first
of all
Reniformis (6), more showy light blue flower.
Both plants very nice and like shade
Sweetseri, var. of rotundifolia with long
leaves and deep blue flower
Talinum spinescens, very dwarf plant for dry
rock garden in sun. Flowers freely borne
and very dainty pink
Tellima odorata, (12) large begonia-like leaves15
Tiarella unifoliata, spray of tiny white flowers,
prefers moist shade
Trientalis latifolia, pink star flower, a tiny pri-
mula
Thymus, the old fashioned thyme not native
with us but so good we have adopted it.
Creeper in winter with dainty lavender fl10
Citriodorus argetteus silver and white (6)25
Citriodorus aureus, green and yellow leaves 2
Langinosus, wooley prostrate foliage, pink fl. 25 Tradescantia virginica, blue, native in Wisconsin 25
Tradescantia virginica, blue, native in Wisconsin .25
Pale blue from Texas (9)
Brevicaulis, pink (6)
Valeriana sylvatica (9) pinkinsh, more dwarf
and better than V. stichensis. We can sup-
ply both
Vancouveria chrysantha, leathery leaves yellow
flowers
Hexandra ferny leaves, white flowers
Veronica incana, white downy foliage, deepest
blue flower (4) Not native here
Viola adunca, blue, very long blooming
Blanda, tiny white
Brooksii, yellow, dry rock garden
Chrysantha or Douglasii, deep yellow
Cuneata, one of the cutest violets. White
with blue eyes and back
finest native violet
Delugtric mints and like for rest mandage 9
Palustris, pink and lilac, for wet meadow
Pedunculata, Yellow Pansy, a very fine deep
Pedunculata, Yellow Pansy, a very fine deep color
Pedunculata, Yellow Pansy, a very fine deep color
Pedunculata, Yellow Pansy, a very fine deep color
Pedunculata, Yellow Pansy, a very fine deep color
Pedunculata, Yellow Pansy, a very fine deep color
Pedunculata, Yellow Pansy, a very fine deep color2 Nuttallii, Downy Johnny Jump-up1 Praemorsa, similar to above, but a paler color and less free-blooming2 Occidentalis, long-stemmed white, for water margin only2

Roezlii, orange, similar to above
Pardalinum, closely related to the latter40
Parryi, a very nice yellow lily, requires moist
soil; rare
•
Bolanderi, a small deep red lily suitable for
the rock garden
Occidentale, extremely rare red lily; moist
location 1.00
Seeds—We strive to secure all the seeds we can of
these and other native lilies. Price per pkt
Frices on larger quantities on request.
BULBS FOR THE ROCK GARDEN
Dry Soil in Sun Unless Otherwise Stated
Allium Acuminatum (6), deep red
Falcifolium (3), large flower, bright red50
Mixed, many kinds and colors
Unifolium, lavender pink
Cernuum, nodding onion
Falcifolium var. demissum
Brodiaea congesta (16), blue flower
Coccinea (14), the firecracker flower1.00
Grandiflora (coronaria) harvest brodiaea.
This hardy midsummer bloomer rivals the
gentians for color. A wonderful blue
Lactea (12), white with green stripe
Laxa, large blue flower
Ixedies (6), yellow with purple stripe
Camassia Esculenta (12) light blue wild hya-
cinth
Leichtlini (16), deep blue hyacinth
Leichtini alba, white hyacinth (3)1.00
Calochorte are the wild tulip of the west and are
more varied and charming than the tulips of Hol-
land. They will grow well under almost any garden
conditions and are excellently well adapted to the
rock garden. Care should be taken to keep them
from irrigation in late summer as they are naturally
dormant at that time.
Doz.
Calochortus Amabilis, deep yellow globe tulip50
Albus, white Fairy Lantern, very dainty
Amoenus, the beautiful pink fair lantern
Lilacinus, very dainty one without hairs,
moist soil
Maweanus, cat ears, pink with hairs
Mariposa types with large flowers on taller
stems.
Nitidus, hardy Mariposa from Idaho, lovely
lawardar distinctly avad (19.18)
lavender, distinctly eyed (12-18)1.25
Macrocarpus, another hardy one, from East-
ern Oregon; will stand 20 degrees below
zero. Very tall plant, many lavender flow-
ers
Vesta, white flowers usually tinted with
lavender and pink
Venustus Citrinus, yellow with black eye
Venustus El Dorado, colors varied from white to deep claret red; the very best 60.

—16—
Erythroniums are very easy to naturalize in woodsy conditions and are good in the blub bed or the rock garden. They are a charming lily and often but erroneously called Dog Tooth Violet. Herberd Durand calls the spotted-leaved varieties Trout Lily, and John Muir calls them Fawn Lily. Both names are good. They are not fussy as to soil or situation and come readily from seed.
Giganteum, cream white
Grandiflorum robustum, bright yellow
Johnsonii, large pink, very fine1.00
Hendersonii, lavender with maroon center50
Klamathensis, light lemon with pink tips1.00
Parviflorum, light yellow
Pink beauty, a fine new one
Fritillarias are at home in the rock garden.
All but Lancelota require well-drained
situation and it is good anywhere.
Doz. Recurva or Red Mission Bell
Lancelota, green lily 1.00
Pudica, vellow bell1.00
Trilliums prefer shade and moist soil. Good
among ferns in a shady corner.
Sessile Chloropetalum, large white flower
BOG GARDEN PLANTS
Aconitum Columbianum (33), purple monkshood .15 Arguta rubra, white flower, red berries
Cornus Candanese (3), Bunchberry, Partridge
Berry
Orchids. Habernaria dilatata (18)
Habernaria dilatata (18)
tresses25
Peramium decipiens, Rattle snake plantain,
not too wet
Epipactus Gigantea
Mimulus Lewisia, the beautiful rose crimson
monkey flower of our highest alpine water gardens (12)
Primuloides, very tiny vellow 25
Primuloides, very tiny yellow
Parassia palustrus (12) dainty white flower

Pyrola bracteata, glossy leaves and lovely pink flowers	.35
Viola occidentalis, palustrus and blanda are at home in the bog garden and glabella, Howellii and Langedorffi on its margin. Prices elsewhere.	
Japanese Iris are water lovers and make a a good back ground for the pool. We can supply the following named and have a nice lot of fine seedlings and lost name	
varieties we offer at 25c each or five for \$1 Clarice Childs, petunia violet	.35
Eleanor Parry, Claret red	.35
Idzumi-gama, gray with blue lines	.35
T. S. Ware, reddish violet	
Yedo-jiman, dark royal blue	
Red Riding Hood, amaranth	.25
Other Water Irises	
Siberica, deep blue or whiteVery tall deep blue	.25
Speiria monneri, tall yellow	.35
Water Plants and Lilies	
Water poppy, small yellow flowers	
Nymphea, three fine varieties 1 Nymphea, mixed many varieties4 for 1	00. 00
Parrots feather, ferny	.25
Pickeral weed, upright grower (24) with	05
bright blue flowerSagittaria, white flower, arrowhead	.25
Mossy pumice and waterworn or lava step- ping stones can be supplied. Prices on re- quest.	\$ JE 7,5
SHRUBS AND TREES	
	1.00
Arotostaphylos Manzanita, evergreen shrub with beautiful bell-shaped pink flowers. Hardy to zero	.30
Green Manzanita, deeper pink flowers	.30
Ura-Ursi, Red Bear-berry Berries, bright red	.25
Azalea occidentalis. This is easily one of the best three Western flowering shrubs, possibly being surpassed by its relative Rhododendron Californica and Romneya Coulteri for beauty of bloom. But it is so much hardier and more likely to succeed it is a much better investment. The flowers are very sweet scented and are freely borne for long season beginning the last of May. The milk white to yellow and pink flowers are in clusters often very large. The foliage is glossy and colors beautifully in autumn. They are decidous and hardy but require a moist soil, acid	
preferred. Nice seedling plants, mixed col- orsLarger, prepaid	

Pink or yellow, ea)
and up, according to size. Small sizes of	
all 6 to 8 in. with plenty of root and	
branches.	
Berberis or Mahionia	
Aquifolium, tall Oregon grape, yellow flower,	
blue berry)
Nervosa, fern leaved, for shade30 to 1.00)
Cornus Nuttallii, Pacific dog wood. Large pure	
white flower. Often blooms in autumn as	
well as early spring	,
Ceanothus Arboreus, whie flowered, broad leaved evergreen; makes small tree. Seeds	
only.	
Ceanothus Interrigimus, wild lilac, covered with	
dainty sweet-scented flowers of many col-	
ors, blue prevailing	
Ceanothus Prostratus, a lovely evergreen creep-	1
er, lavender	,
Ceanothus, Prostratus var., divergenus, one foot	1
high, lavender. Seeds.	
Ceanothus Pumila, very flat carpeter, varied	
flowers	}
Grossularie Roezli, fuchsia flowered gooseberry 30)
Philadelphius Lewisia, mock orange, scented	
white flower	5
Rhodendron Californica, beautiful state flower	
of Washington. We can supply fine little	
seedlings of these carefully handled and	
well packed, but cannot warrant them to	
grow. Small plants 6 to 10 inches high,	
at 50c each. Larger at proportional higher	
prices. Very good plants with soil on roots,	
well mossed and burlaped at, each, f.o.b1.50)
Rosa Gymnocarpa, nice little rose for rock gar-	
den)

a tree with edible berries	
Racemosa, red Elderberry, not edible Synphoricarpus albus, Snowberry, small shrub	15
Mollis, traing form of above	15
Honeysuckle, Trumpet woodbine with large	·IU
clusters of orange-red flowers	.35
Lonicera hispidula var. Californica, not so	
snowy as the last	.35
Vitis Californica, wild grape. A high climber,	
small tasty grapes that make a wonder-	
small tasty grapes that make a wonder- rul jerly. Leaves color beatifully in au-	
tumn	.25
Creepers that spread and spreaders that	
creep and soar more or less.	
Gysophila repens, white flowers	
Gysophila repens, rose, and deep pink flowers	
Kenilworth ivy, very small with lilac flowers	.15
Nepera hederacea, creeping Charlie, a flat car-	10
vinca major, a rampant green leaved blue flow-	.10
ered vine, that will soon cover any moist	
shady spot. Not hardy much below zero	15
Minor, smaller with lavender flowers	
Variegata, cream and green leaves with	
pretty blue rlower. Not too lively a	
spreader	.15
Linnaea borealis makes a lovely carpet where	
there is some moisture and shade. Does	
not spread too fast	.15
Oxalis corniculata var. atrupurpurea, yellow	4.0
flower, red purple foliage	.10
Dwarf, but not creeping, sometimes called	
Shamrock. Is of European origin. Oenothera species from Louisiana, but proved	
hardy at 14 degrees below zero. Spreads	
underground very rapidly in good soil.	
Flower a very dainty pink cup in bloom	
all summer. May be planted in bottom-	
less pot to prevent spreading	.15
Dicentra formosa, while not a creeper is a	
rapid spreader and fine in a shady spot	
where ferny foliage and continuous pink	
flowers are desired	.15
Veronica spicata (15) bluest blue	.15

Veronica species (6) lavender blue	.15
Hemerocallis flava, Lemon lily. You'll not care	
if this does spread, it's so pretty. It is a nice clear yellow	05
a nice clear yellow	.25
Fulva flower, burnt orange foliage luxuri- ant, spikes 3 to 4 ft. A rapid spreader	.15
Hanneric matronalis Sweet Rocket sweet-	.10
Hesperis matronalis, Sweet Rocket, sweet- scented, lavender-purple flower, early	
spring (3). Seeds. Spreads	.10
Feverfew, double white, seeds itself	.10
MINTS AND HERBS	
Catnip, peppermint, spearmint, horehound Yerb Buena, dried 2 oz. 15 per root	15
Uva-urai, Price's pine2 oz.	15
We are aften asked what to plant while	.10
the newly set perennials get started and	
after early bulbs are bloomed and gone.	
Virginia Stocks are very good as they are very	
small and bloom quickly. 100 seeds	.05
Eeriogonum (Oregonium) vimineum a pink flow-	
ered annual that cuts as nicely as a statice, holding its color well. 100s	05
Portulacca is also very nice in full sun, single	.00
varieties we like best. Per pkt.	.05
Viola Alpina is very quickly in bloom but	
spreads very freely by seeds	.05
We live mostly on the beauties we work	
among but we do sometimes use food.	
Here are some of our favorites.	
For the Bog Garden we can also supply Cat-	
tails, rushes and water grasses, but feel	
we should say again that they are spread-	05
ers, indeed. Per clump	.25
VERY RARE PLANTS	
When ordering from this list please make so	me
extra selections or allow us time to get the plant	s if
we are out, as our stock is small.	
Achlys Triphylla, Sweet-after-death from the	
lasting perfume of the leaves when picked.	.25
Hesperochiron Californica, one of our rarest	.20
and most beautiful alpines. fl. pure white	
to rose-mauve	.50
Allium amplectens	
Fimbriatum, pink and purple	.40
Validum. Large swamp onion	1.00
Brodiaea Douglasi, light blue	
Nye's new dwarf blue, similar to B. Stellaris,	.00
many flowers on short stems for rock	
gardens	.60
Pulchella, lavender purple	.60
Calochortus Clavatus, Golden Bowl, one of the	
finest we've seen	1.50

Golden Groundcherry. We have grown this for	
fifty years and are often told it is better	
than yellow groundcherry usually is. We	
make them into pies and sauce as well	0.0
as preserves. Sow where it is to grow. Pkt.	.05

ROCK GARDEN LORE

For many years I tried with small success to grow wild flowers. Then I learned of the rock garden idea. I began at once with an apron full or rocks and a bucket of dirt. It was a success and a joy from the first. Drainage is one of the most essential points. Arrange your rocks to allow drainage and to conserve moisture. Always use acid soil for wood dwellers and alkaline for desert plants. If your soil is heavy or clay, use crushed gravel, broken crockery, brick or plenty of sand. Peat moss is highly recommended but I have not yet tried it. If you collect your own plants carefully note whether they grew in sun, shade, wet or dry, soil black, leaf mold or sandy and duplicate these in its new home in your garden. If you buy your plants, read the requirements given in the catalog and heed them. It is a great deal more fun to succeed than to fail. Wishing you all success I am,

Sincerely and Cordially yours,
